- All graves are 4'x10', with the upper two feet reserved for the headstone.
- All headstones in the upper four sections must be at ground level.
- Plots remain in the 1910 section, which allows for upright headstones.
- Plots may be repurchased by the cemetery association at the original price on the deed. The deed must be returned to the cemetery association.
- All transfers of plot ownership must be done through the cemetery association, so our records remain correct.
- Families are allowed to bury cremation remains themselves as long as it is two feet deep, and the cemetery association has been contacted.
